Minutes of the Ormond Angling Club General Meeting

Angling Matters:

Members' Angling Reports (including any reports from previous Members Night):

1. Peter and Tom went on to Bemm River after the Gippsland Rivers competition, and caught bream to 43 cm in the channel, and Australian salmon to 50+cm/1.5 kg in the surf. The entrance was closed and water level was high. Fishing was slow, but it was nice to get big fish, compared to the Tambo.

E4 Gippsland Rivers and interclub vs Elwood Angling Club Saturday 28-Sunday 29th May - Trevor Thommers:

Friday was rainy and windy, but fortunately the weather improved for Saturday, although the temperature was only 1 degree at launching, and then got colder! plus a shower or two in the afternoon. Sunday was a bit better, sunny, but with a cold breeze.

Everyone fished the Tambo. There were lots of little fish, with keepers few and far between. The surprising part was the variety of species caught, including bream, mullet, trevalley, flathead, a pinkie, and even a butterfly gurnard.

Elwood Angling Club are a very social group of people – staying together, eating together – we had a really good time with them at their BBQ on Saturday night.

Angling Secretary's report:

E4 Gippsland Rivers and interclub vs Elwood Angling Club Saturday 28-Sunday 29th May Interclub results (bream only):
